H. MARTIN FOUNDATION will collaborate with each and every Government and integrate with existing Faith-based Charitable Organizations, Humanitarian Agencies and Non-Government Developmental Organizations. Through a grassroots effort of needs assessments, criteria will be developed to determine the types of projects that will ultimately be funded and implemented in each and every community worldwide.

The **H. MARTIN FOUNDATION** is purely humanitarian service, based on the principle that it is *“For the People”*, thus it must be formed *“By the People”*, representatives *“Of all the People”* that it will serve.

What is the H. MARTIN FOUNDATION ?

The **One Budget One Model Project** concept will ensure uniformity in the implementation, where every humanitarian organization will be provided with the pertinent funds and logistical support for the realization and sustainable development of their respective projects. This will generate livelihood opportunities and ultimately uplift the economic condition of the people in the communities.

Because of the great magnitude of the assets, the needed requirements must be met before the funds will be released...**The Program** how we are going to operate globally, **The Projects** to be implemented, and **The People** that are going to work on it. Our desire is to work together in harmony and in unity, so that people all over the world may have "**Life in its Fullness**."

The Key to Your Funding is:

Participation by Key Leaders who can represent and address the needs of their organization or community and help standardize the **funding** process.

About the Foundation . . .

H. MARTIN FOUNDATION is currently at the peak of its pre-implementation stage where volunteer groups from different countries all over the world are coming together to assist in the development of the work of HMF in their country, while awaiting the establishment of H. MARTIN FOUNDATION Far East Humanitarian Services USA as the International Main Office which is going to be the Worldwide Headquarters.

HMF is structured to conduct its own direct funding programs as well as substantially support other humanitarian organizations that have clearly demonstrated effectiveness in their chosen fields of humanitarian causes.

The Foundation invites successful active humanitarian organizations to work in an integrated effort in the implementation of Humanitarian Programs and Projects worldwide. Combining the best of different project expertise, we can create one efficient model and come up with “One Budget per One Model Project” to streamline the approval and funding process.
