RE: New Development Bank (NDB) and Contingency Reserve Arrangement (CRA)

Dear Current and Future Member Countries of BRICS,

On behalf of the **H. MARTIN FOUNDATION Far East Humanitarian Services** ("HMF"), I would like to congratulate all of you in the establishment of BRICS New Development Bank (NDB) and its Contingency Reserve Arrangement (CRA).

The **H. MARTIN FOUNDATION Far East Humanitarian Services** (structured as A Worldwide Humanitarian FUNDING Institution), would like to COLLABORATE with the BRICS Member Nations in the formation of the New Development Bank (NDB) and Contingency Reserve Arrangement (CRA), where the FUNDING of the **H. MARTIN FOUNDATION Far East Humanitarian Services** can trickle down to the member countries and tackle the problem of infrastructure investment to fight poverty and other social issues.

In the COLLABORATION, I would like to bring out our proposals and strategic implementation that will hasten the formation of the BRICS New Development Bank (NDB) into a credible International Financial Institution, an alternative financial infrastructure to help develop all member countries.

The **H. MARTIN FOUNDATION** has significant depository assets, physical assets (GOLD, platinum, barrels of diamonds, precious gemstones, etc.) and infrastructure that will give chance to all member countries the role in creating and building it, which will encourage cooperation instead of competition. The addition of the **H. MARTIN FOUNDATION Far East Humanitarian Services** as a "Spiritual Sovereign Nation" will surely enhance the role of BRICS and other future member countries. Together we can achieve in a very short time, a global economic and financial order and shape a new global financial architecture that will revolutionize the global economy.

I will be looking forward to hearing from all of you. Since different quasi-government agencies are monitoring the **H. MARTIN FOUNDATION** transactions and the possibility of my identity stolen, I would prefer you send me your response at this time using this address and the name [REDACTED]

Worldwide Humanitarian Relief Foundation, which like so many other NGOs, would be unable to make the same kind of financial statement as a public company. The fact that it is not a public company is not a problem, because the public company is not the one that is being investigated. The public company is the one that is being investigated. The public company is the one that is being investigated.

The U.S. District Court for the District of Columbia, in *United States v. Microsoft Corp.*, 1998 WL 10339 (D.C. 1998), held that the government's proposed discovery of Microsoft's internal documents was overly broad and that the government's proposed discovery of Microsoft's internal documents was overly broad. The court held that the government's proposed discovery of Microsoft's internal documents was overly broad and that the government's proposed discovery of Microsoft's internal documents was overly broad.
